# 1 Introduction

The METIS-II website is located at: <https://metis-ii.5g-ppp.eu>

## 1.1 Objective of the document

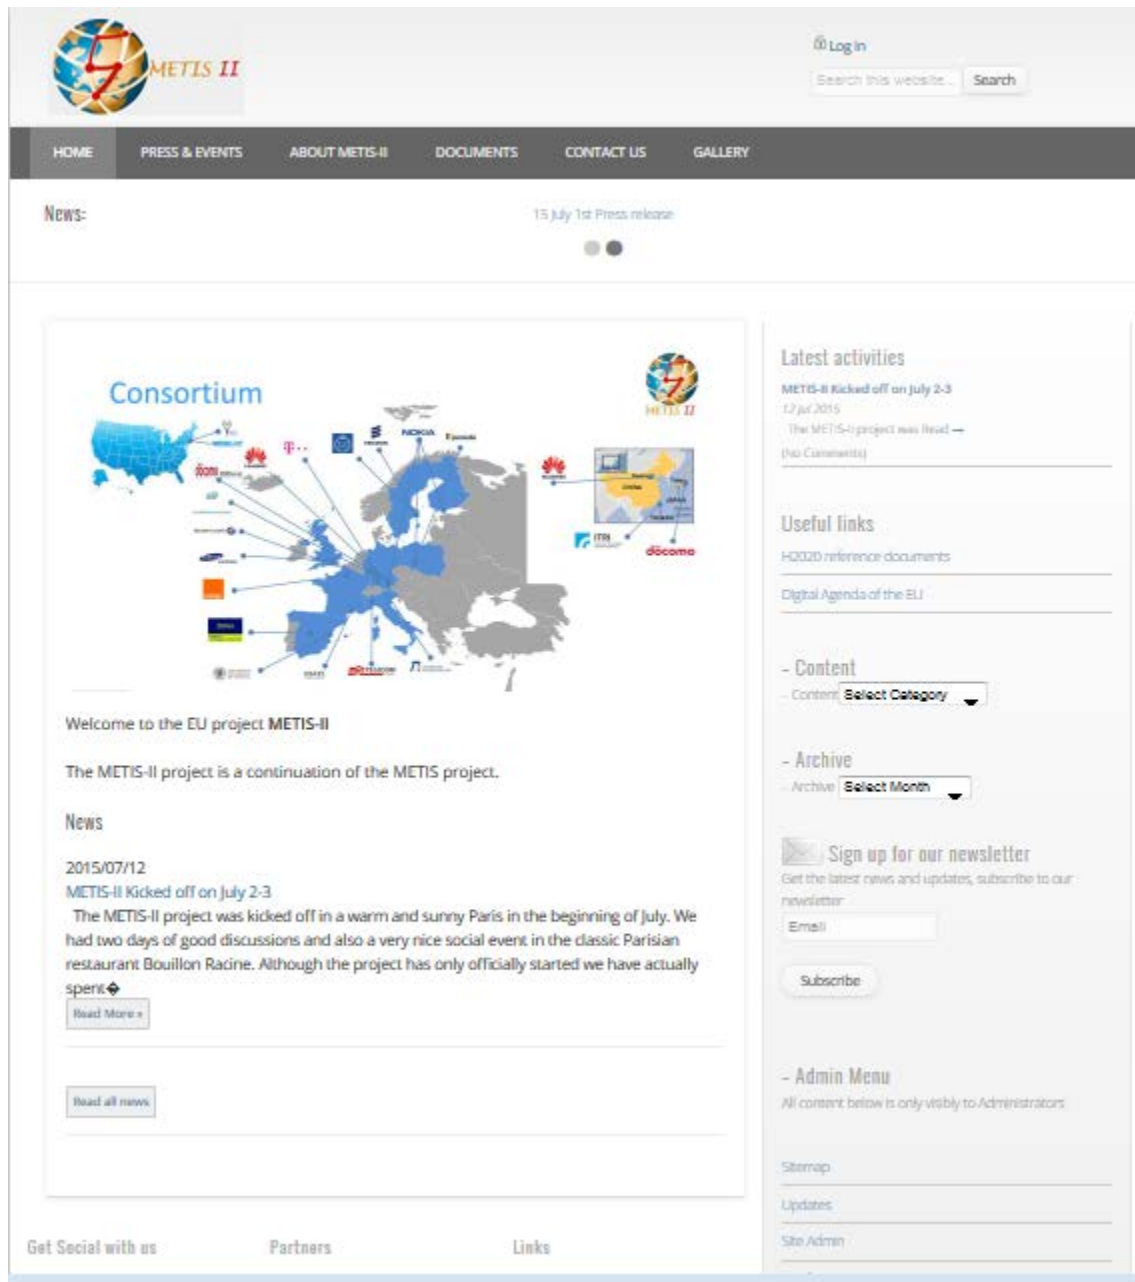

This document provides an overview of the structure of the METIS-II webpage and a snapshot of the content at the time of the Deliverable submission. The web will be continuously updated with information and results as they become available.

## 1.2 Structure of the document

In sections 2-7 the main sections of the website are presented. In section 8 the technology behind the site is discussed.

## 2 Main page

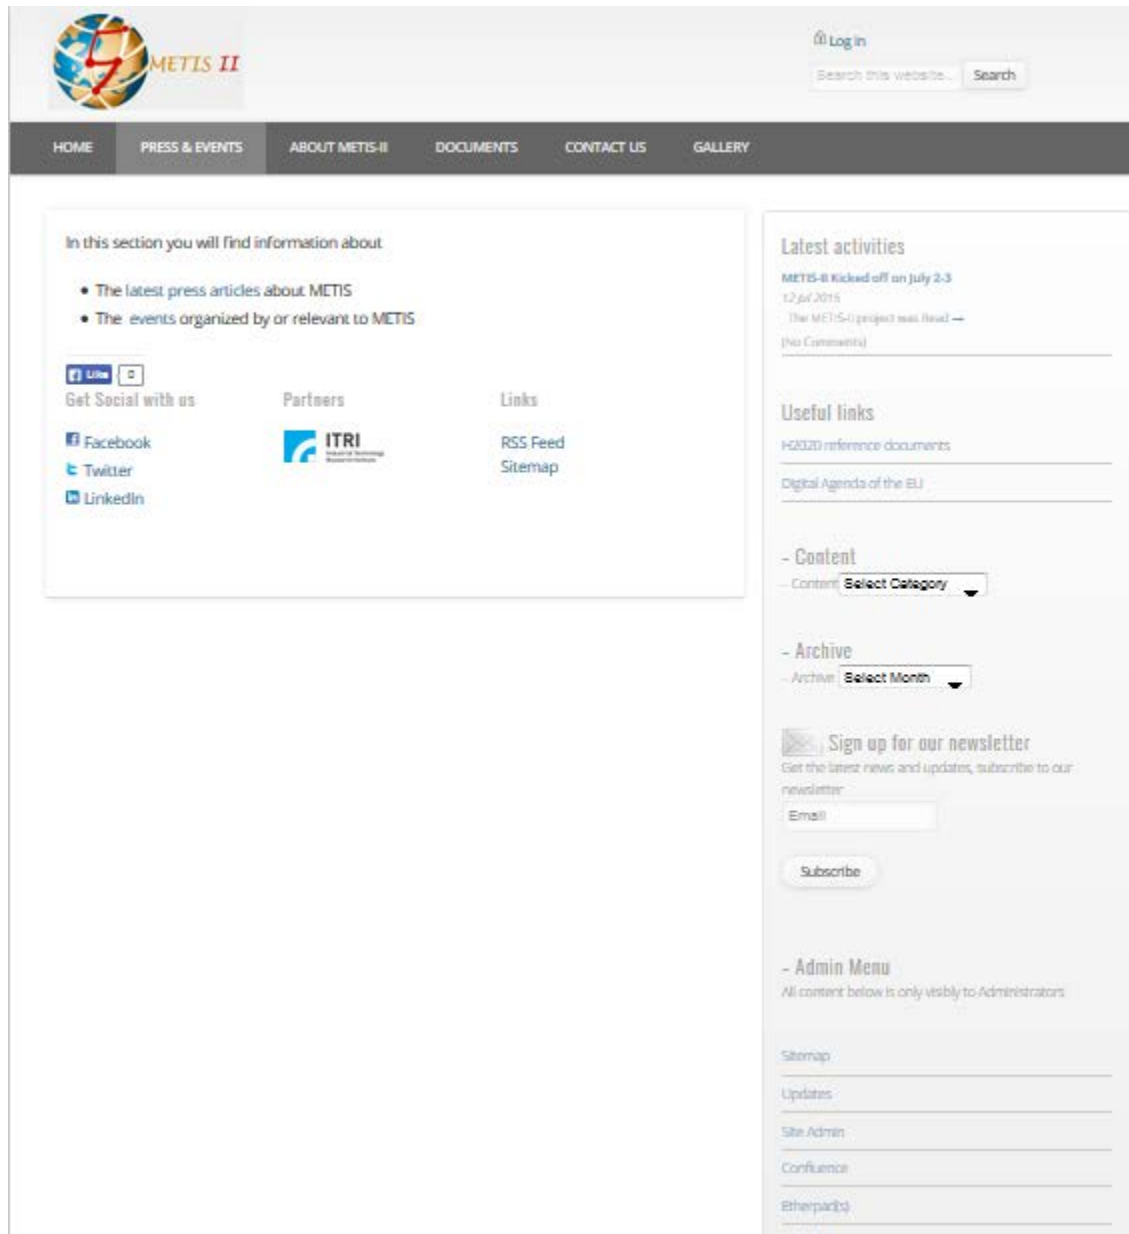

The main page is the starting point for visitors to the METIS-II web. It provides an overview of the latest news of the project as well as a slideshow that gives a quick overview of the project.

The screenshot shows the main page of the METIS-II website. At the top left is the METIS II logo. To the right is a 'Log in' button and a search bar with the text 'Search this website...'. Below the logo is a navigation menu with links: HOME, PRESS & EVENTS, ABOUT METIS-II, DOCUMENTS, CONTACT US, and GALLERY. The main content area features a 'News-' section with a date '15 July 1st Press release' and a carousel of two dots. Below this is a large graphic titled 'Consortium' showing a map of Europe with various logos and arrows pointing to different regions. To the right of the main content is a sidebar with several sections: 'Latest activities' with a news item 'METIS-II Kicked off on July 2-3' dated '12 Jul 2015'; 'Useful links' with links to 'H2020 reference documents' and 'Digital Agenda of the EU'; a 'Content' section with a 'Select Category' dropdown; an 'Archive' section with a 'Select Month' dropdown; a 'Sign up for our newsletter' section with an email input field and a 'Subscribe' button; and an 'Admin Menu' section with links for 'Sitemap', 'Updates', and 'Site Admin'. At the bottom of the page are links for 'Get Social with us', 'Partners', and 'Links'.

### 3 Press and Events

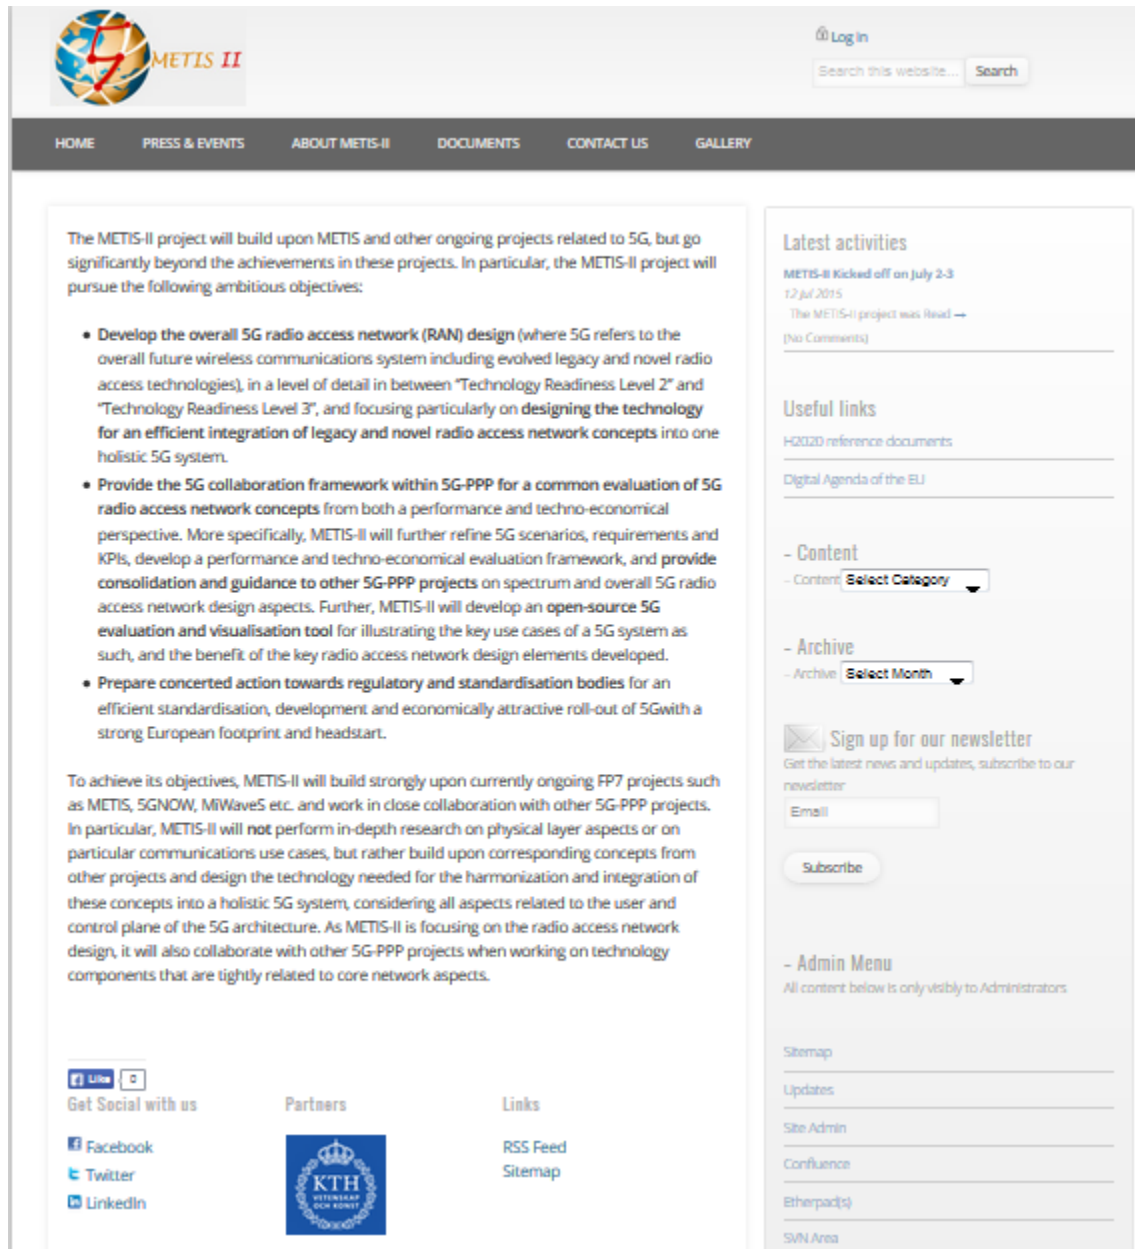

The Press and Events page features press releases and information about events arranged by the project.

The screenshot shows the METIS II website interface. At the top left is the METIS II logo. To the right is a 'Log in' button and a search bar with the text 'Search this website...' and a 'Search' button. Below the header is a navigation menu with the following items: HOME, PRESS & EVENTS (highlighted), ABOUT METIS-II, DOCUMENTS, CONTACT US, and GALLERY. The main content area is divided into two columns. The left column contains a section titled 'In this section you will find information about' with two bullet points: 'The latest press articles about METIS' and 'The events organized by or relevant to METIS'. Below this are three columns of social media and partner links: 'Get Social with us' (Facebook, Twitter, LinkedIn), 'Partners' (ITRI logo), and 'Links' (RSS Feed, Sitemap). The right column contains several sections: 'Latest activities' with a post titled 'METIS-II Kicked off on July 2-3' dated 12 Jul 2015; 'Useful links' with 'H2020 reference documents' and 'Digital Agenda of the EU'; a 'Content' section with a 'Select Category' dropdown; an 'Archive' section with a 'Select Month' dropdown; a 'Sign up for our newsletter' section with an email input field and a 'Subscribe' button; and an 'Admin Menu' section with a note 'All content below is only visible to Administrators' and links for Sitemap, Updates, Site Admin, Confluence, and Etherpad(s).

## 4 About METIS-II

The About METIS-II page provides information on the objectives and the structure of the project. In addition a list of the consortium members and the motivation for the project is provided.

The screenshot shows the 'About METIS-II' page of the project website. The page features a navigation menu with links for HOME, PRESS & EVENTS, ABOUT METIS-II, DOCUMENTS, CONTACT US, and GALLERY. The main content area is divided into two columns. The left column contains the project's objectives, which are listed in three bullet points. The right column contains a 'Latest activities' section with a recent update from July 2015, a 'Useful links' section with references to H2020 documents and the Digital Agenda, and a newsletter sign-up form. At the bottom of the page, there are social media links for Facebook, Twitter, and LinkedIn, a KTH logo, and a list of site links including Sitemap, Updates, Site Admin, Confluence, Etherpad(s), and SVN Area.

The METIS-II project will build upon METIS and other ongoing projects related to 5G, but go significantly beyond the achievements in these projects. In particular, the METIS-II project will pursue the following ambitious objectives:

- Develop the overall 5G radio access network (RAN) design (where 5G refers to the overall future wireless communications system including evolved legacy and novel radio access technologies), in a level of detail in between "Technology Readiness Level 2" and "Technology Readiness Level 3", and focusing particularly on designing the technology for an efficient integration of legacy and novel radio access network concepts into one holistic 5G system.
- Provide the 5G collaboration framework within 5G-PPP for a common evaluation of 5G radio access network concepts from both a performance and techno-economical perspective. More specifically, METIS-II will further refine 5G scenarios, requirements and KPIs, develop a performance and techno-economical evaluation framework, and provide consolidation and guidance to other 5G-PPP projects on spectrum and overall 5G radio access network design aspects. Further, METIS-II will develop an open-source 5G evaluation and visualisation tool for illustrating the key use cases of a 5G system as such, and the benefit of the key radio access network design elements developed.
- Prepare concerted action towards regulatory and standardisation bodies for an efficient standardisation, development and economically attractive roll-out of 5G with a strong European footprint and headstart.

To achieve its objectives, METIS-II will build strongly upon currently ongoing FP7 projects such as METIS, 5GNOW, MiWaveS etc. and work in close collaboration with other 5G-PPP projects. In particular, METIS-II will not perform in-depth research on physical layer aspects or on particular communications use cases, but rather build upon corresponding concepts from other projects and design the technology needed for the harmonization and integration of these concepts into a holistic 5G system, considering all aspects related to the user and control plane of the 5G architecture. As METIS-II is focusing on the radio access network design, it will also collaborate with other 5G-PPP projects when working on technology components that are tightly related to core network aspects.

## 5 Documents

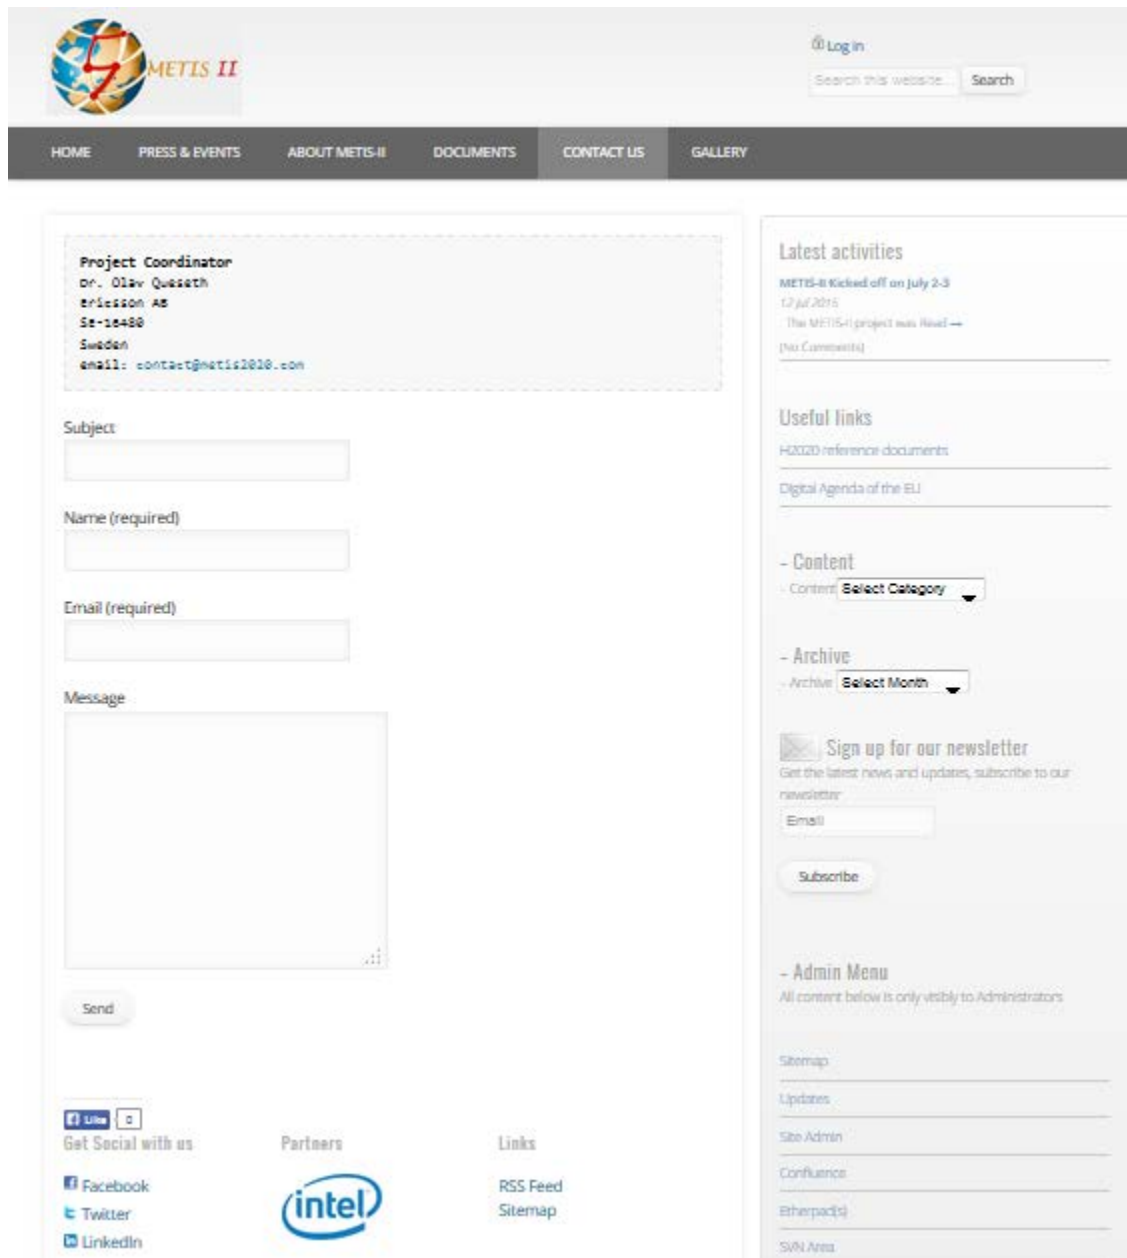

The documents section will feature all documents produced by the project as well as code developed and shared by the project.

The screenshot displays the METIS II website interface. At the top left is the METIS II logo. To the right, there is a 'Log in' link and a search bar with the placeholder text 'Search this website...'. Below the header is a navigation menu with the following items: HOME, PRESS & EVENTS, ABOUT METIS-II, DOCUMENTS (which is highlighted), CONTACT US, and GALLERY. The main content area is divided into two columns. The left column contains a heading 'In this section you can find information and documentation on Presentations, Deliverables and Publications.' followed by three sub-sections: 'Get Social with us' with links to Facebook, Twitter, and LinkedIn; 'Partners' with a logo for 'janmedia'; and 'Links' with links to 'RSS Feed' and 'Sitemap'. The right column features a 'Latest activities' section with a post titled 'METIS-II Kickoff off on July 2-3 12 Jul 2015' and a 'Useful links' section with links to 'H2020 reference documents' and 'Digital Agenda of the EU'. Below these are two dropdown menus: '- Content' with a 'Select Category' dropdown and '- Archive' with a 'Select Month' dropdown. At the bottom of the right column is a 'Sign up for our newsletter' section with an email input field and a 'Subscribe' button, followed by an 'Admin Menu' section with links for 'Sitemap', 'Updates', and 'Site Admins'.

## 6 Contact us

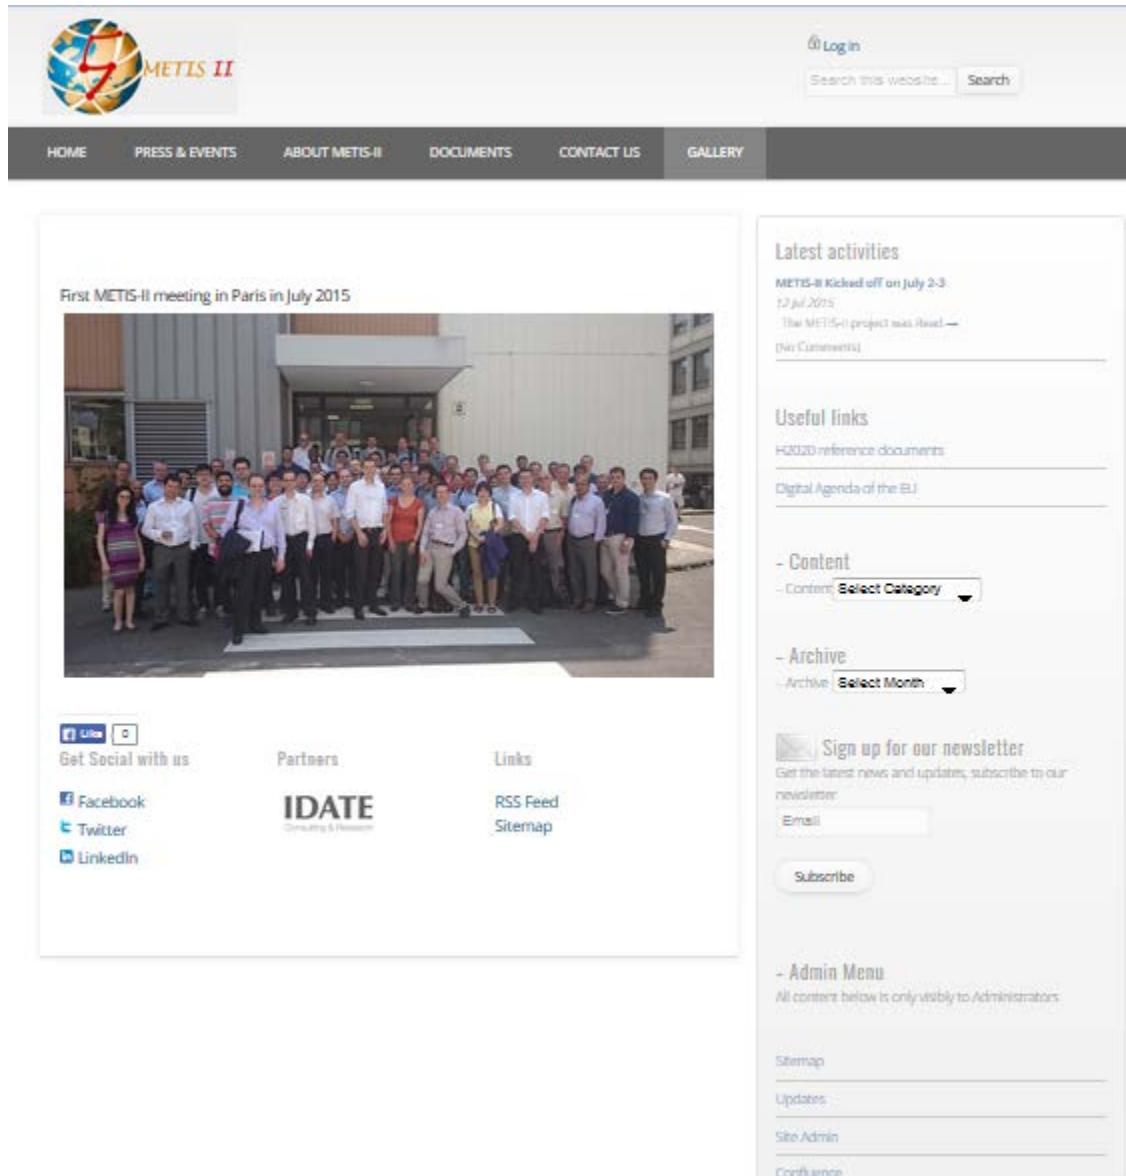

The “Contact us” page provides contact information of the Project Coordinator for those who are interested in inquiring about METIS-II. There is also an optional fill-in form

The screenshot shows the 'Contact us' page of the METIS II website. At the top left is the METIS II logo. To the right is a 'Log in' link and a search bar. Below the header is a navigation menu with links for HOME, PRESS & EVENTS, ABOUT METIS-II, DOCUMENTS, CONTACT US (highlighted), and GALLERY. The main content area is divided into two columns. The left column contains contact information for the Project Coordinator: Dr. Olav Queseth, Division AD, SE-16480, Sweden, and email: contact@metis2020.com. Below this is a contact form with fields for Subject, Name (required), Email (required), and a Message text area, followed by a Send button. The right column features a 'Latest activities' section with a post from July 2-3, 2015, titled 'METIS-II Kicked off on July 2-3'. Below this are 'Useful links' for H2020 reference documents and the Digital Agenda of the EU. There are also filters for Content (Select Category) and Archive (Select Month). A 'Sign up for our newsletter' section includes an email input field and a Subscribe button. At the bottom of the right column is an 'Admin Menu' section with links for Sitemap, Updates, Site Admin, Confluence, Etherpad(s), and SVN Area. The footer contains social media links (Facebook, Twitter, LinkedIn), a Partners section with the Intel logo, and a Links section with RSS Feed and Sitemap.

# 7 Gallery

The Gallery has photos from events and meetings of the project.

The screenshot shows the METIS II website gallery page. At the top, there is a navigation bar with the METIS II logo on the left and a search bar on the right. The navigation menu includes: HOME, PRESS & EVENTS, ABOUT METIS II, DOCUMENTS, CONTACT US, and GALLERY. The main content area features a large photo of a group of people at a meeting, with the caption "First METIS-II meeting in Paris in July 2015". Below the photo are social media links for Facebook, Twitter, and LinkedIn, and a partner logo for IDATE Consulting & Research. To the right of the main content, there are several sidebar sections: "Latest activities" with a link to "METIS-II Kicked off on July 2-3 12 Jul 2015"; "Useful links" with links to "H2020 reference documents" and "Digital Agenda of the EU"; a "Content" filter dropdown; an "Archive" dropdown; a "Sign up for our newsletter" form with an email input field and a "Subscribe" button; and an "Admin Menu" section with links for "Sitemap", "Updates", "Site Admin", and "Confluence".

## 8 Technical information

The web has been implemented using WordPress with a number of plug-ins to provide news-tickers, galleries and other elements.

The domain “metis-ii.5g-ppp.eu” and related certificates is provided by Eurescom as part of 5G-PPP support action Euro 5G.

The web-server is hosted by Ericsson IT services. The server is running CentOS on a virtual machine in the Ericsson server park.
